FACTS

Ergonomics examination at basic model Ergo Medic 100-2

EQUIPMENT

High backrest with breathable self-supporting mesh cover in the colours black or white, height adjustable via ratchet mechanism

Headrest with leather cover, adjustable in angle, as an option

Convenient, ergonomic shaped moulded seat with integrated seat-depth and seat-angle adjustment, including patented 3D - Dondola® - seat joint

Including special depth suspension

Battery pack installed underneath the seat (charging adapter included in the delivery)

Point synchro mechanism with spring tension

Design aluminium base polished including design castors either available for soft or for hard floors

3D-infrared emitter with 36V technology for contactless, homogenous and distance-independent heat transfer throughout the entire central back area for every back shape

User recognition via seat contact

Integration of the technology underneath the seat

Two intensities of the infrared emitter are available:

Heat load: rapid locally focused warming of the back muscles

Heat application: for local warming of the central back area, general warming and support of mental relaxation exercises at the workplace
