Move your life.

5 YEARS\* WARRANTY

MADE IN GERMANY

\* According to the Wagner warranty terms. For usage in commercial catering area the warranty is regulated separately.

## FEATURES

- + D2 is a parametric furniture system made from commercially available lightweight aluminium or cardboard panels.
- + In terms of the circular economy, these two materials are currently the only ones that can be recycled by type, unlike comparable board materials.
- + With specially developed polyamide fittings, matching aluminium profiles and back panels made of translucent polycarbonate, the panels can be assembled without tools to create shelving and customised room solutions.
- + High quality and robust surfaces
- + Innovative plug-system
- + Height-adjustable glides
